

FLOW MANUAL — Shopify Mono-Product Landing Page Spec

Long-Form Direct-Response Sales Letter (Advertorial Style)

For implementation by Claude Code on a Shopify store

0. PROJECT BRIEF (read this first)

Goal: Build a single-product Shopify store selling a digital eBook/PDF called "**Flow Manual**" (by "Lobo do Street"), teaching people how to sell.

Format: Digital download (PDF). No physical shipping. **Price positioning:** Low-ticket. Anchor price vs. discounted price (e.g. €47 → €17, or €37 → €17 — pick final numbers in Section 7). **Social proof status:** Pre-launch. **No fabricated testimonials.** Use founder-credibility, guarantee, and "early access / charter buyer" framing instead of fake reviews (see Section 9). **Tone:** High-energy direct-response copywriting — the "street-smart sales mentor" voice. **Structural model:** Classic long-form advertorial funnel (headline → agitation → origin story → mechanism reveal → product → offer stack → guarantee → FAQ → close). This is a well-established public-domain marketing structure (used across countless industries), not tied to any single brand — we are reusing the *pattern*, with 100% original copy for Flow Manual.

Tech stack assumptions:

Shopify (Online Store 2.0, custom sections/theme)

Digital delivery via a fulfillment app (e.g. Shopify's own "Digital Downloads" or an app like SendOwl / FetchApp) since this is a PDF, not a physical SKU

One product, one page, no navigation distractions (funnel-style page)

Mobile-first (60-80% of traffic on this style of page is mobile)

1. PAGE ANATOMY (section-by-section order)

This is the exact skeleton to build as Shopify sections, top to bottom:

Minimal header — logo only + single anchor CTA button, no menu (or a stripped menu with only #ingredients-equivalent anchors: "What's Inside" / "FAQ")

Hero — big promise headline + subheadline + hero image (eBook mockup) + primary CTA

Sub-hero bullet stack — 5-6 punchy benefit bullets (bolded fragments)

Pattern interrupt / "For people who are done with X" headline

Founder story block — "Who is Lobo do Street and why should you listen"

Origin story / turning point — personal narrative that built the mission

Mission statement block

Problem agitation — "The invisible reason most people can't sell" framing

Symptom list (3 visual symptom cards, icon + short copy each)

Mechanism reveal — the "secret" / proprietary method name (your unique framework)

Origin-of-the-method story — where this method comes from / why it's different from what's "taught" everywhere else

Villain framing — who benefits from you NOT knowing how to sell (gurus selling fluff, expensive courses, corporate sales training, etc. — see Section 6 guidance on doing this ethically)

The solution introduction — "Flow Manual" named and framed as the codified system

What's inside / Module breakdown — equivalent to "ingredients," each module gets: icon/image + module name + 4-7 bullet outcomes

Pricing/offer stack — 3 tiers (see Section 7)

Bonuses stack — 2 bonuses tied to higher tiers

Trust/quality block — who made it, standards, format specs

Urgency/scarcity block — honest scarcity mechanism (see Section 10 — no fake countdown lies)

Guarantee block

How it works / delivery process — "what happens after you buy"

Founder sign-off letter close — first-person direct appeal + signature

P.S.

Repeat pricing table

FAQ accordion

Final repeat pricing table + CTA

Footer — legal links, disclaimer, support email

Design principle carried over from the reference page: sections are **repeated** (hero image, pricing table, CTA) 2-3 times down the page. Every major belief-shift block is followed by a CTA opportunity. Never make the reader scroll more than one screen without seeing a way to buy.

2. IMAGE PLAN

#	Placement	Image type	Notes
1	Header/Hero	Flow Manual eBook 3D mockup	Clean, high-contrast, on transparent bg
2	Hero secondary	Founder photo (confident, direct eye contact)	Not stocky — real or stylized portrait
3	Founder story	Founder photo #2 (candid/behind the scenes)	Builds authenticity
4	Origin story	Supporting image (city street / hustle imagery matching "Lobo do Street" brand)	Sets tone
5	Symptom cards (x3)	3 simple icons (e.g. "no closes," "chasing leads," "underpriced")	Flat icon style, consistent set

#	Placement	Image type	Notes
6	Mechanism reveal	Diagram/graphic of your named framework (e.g. "The FLOW Method")	Simple 3-5 step visual
7	Module breakdown (x5-7)	One icon or mini-mockup per module	Keep consistent visual language
8	Pricing tiers (x3)	Bundle mockups (1 eBook / eBook+bonus1 / eBook+bonus1+bonus2)	Stack visual, like "3 bottles" analogy but with devices/PDF stacks
9	Trust block	Badges: "Instant Digital Access," "Secure Checkout," "30-Day Guarantee"	Use Shopify trust badge conventions
10	Guarantee	Guarantee seal/badge graphic	
11	Delivery/process	3-step icon graphic: Buy → Instant Email → Start Reading	
12	Founder sign-off	Signature graphic + final founder photo	

Image sourcing note for Claude Code: since there is no existing product photography, generate/commission: (a) founder photography, (b) a designed eBook mockup (Canva or a mockup generator), (c) a simple framework diagram, (d) icon set (Flaticon/Streamline style, consistent line-weight). Do not use stock photos of unrelated people as if they were "founder" or "customer" photos — that becomes a false-endorsement problem.

3. COPY MODULES (fill-in-the-blank, ready to hand to Claude Code as content)

Below is full original ad copy for Flow Manual, written in the same persuasive architecture as the reference page but 100% original wording. Adjust names/numbers as needed.

3.1 Hero

Eyebrow: FOR PEOPLE WHO ARE TIRED OF LOSING SALES THEY SHOULD HAVE CLOSED

H1: The Street-Proven Playbook That Turns "Maybe Later" Into "Take My Money" — Without Being Pushy, Scripted, or Salesy

Subhead: Flow Manual is the no-fluff system Lobo do Street uses to close deals in real conversations — condensed into one sitting you can read tonight and use tomorrow.

Primary CTA button: GET THE MANUAL NOW

3.2 Bullet stack (under hero)

A field-tested closing framework, not recycled theory from a business degree

Turns objections into **buying signals** instead of dead ends

Works for **DMs, calls, in-person, cold or warm** — one flow, every channel

Kills the awkward "trying to sell" feeling so conversations **feel natural again**

Built from **real street-level selling**, not a corporate sales floor script

30-day guarantee — read it, use it, or get your money back

3.3 Pattern interrupt headline

ATTENTION: If you've ever gone quiet after someone said "let me think about it" and watched the sale die right there — this is for you.

Here's the truth nobody tells you: closing isn't about charisma, confidence, or being a "born salesperson."

It's about **sequence** — saying the right thing, in the right order, at the right moment. Most people never learn the sequence, so they wing it and lose deals they should have won.

I'm about to hand you that exact sequence. But first, you should know why you can trust it.

3.4 Founder story block

H2: Who Is Lobo do Street, And Why Should You Listen?

I'm not a motivational speaker who's never sold anything real. I didn't learn this from a textbook or a \$2,000 seminar.

[**Replace with your real, specific background** — e.g.: years selling on the street/ door-to-door/market stalls/cold calling, the actual number of deals or years, a concrete credential if you have one (certification, company results, etc.)]

My results — and the results of the people I've personally coached — speak for themselves.

I have a reputation to protect, which is exactly why everything in this manual is something I use myself, not theory I read somewhere.

3.5 Origin story (turning point)

H2: [Replace with your real turning-point headline, e.g. "It Started With a Sale I Should Have Never Lost"]

[Write your real story here: the moment that pushed you to systemize selling — a lost deal, a mentor, a failure that taught you the framework. Keep it specific and true — this section only works if it's real. 150-250 words.]

 **Important:** Unlike the reference funnel's dramatized "tragic day" narrative, your story should be genuinely yours. A fabricated tragedy used purely for emotional manipulation is a credibility risk (and an ethical one) — use a real moment, even a modest one. Authenticity converts better long-term and protects your reputation.

3.6 Mission statement

H2: This Became My Mission

I built Flow Manual so that anyone — regardless of background, confidence level, or "natural talent" — can walk into a sales conversation with a repeatable system instead of guesswork.

3.7 Problem agitation

H2: Most People Who Struggle to Sell Have One Invisible Problem: "Conversation Drift"

Symptom cards:

You lose control of the conversation — the prospect steers, you react, and by the time you try to close, the moment's gone.

You over-explain instead of asking — you talk more when you're nervous, which buries your offer under noise.

You freeze on objections — "I need to think about it" ends the call instead of opening the real conversation.

3.8 Mechanism reveal

H2: The FLOW Method: A 4-Step Sequence That Keeps Every Conversation Moving Toward Yes

[Name your actual framework — "FLOW" is a placeholder acronym you can build out: **F**ind the real want → **L**ower the guard → **O**ffer the bridge → **W**in the close, or replace with your own terminology.]

Every top closer — whether they realize it or not — runs some version of this sequence. Flow Manual makes it explicit, so you don't have to reverse-engineer it through years of trial and error.

3.9 "Why isn't this taught everywhere" block (villain framing — see Section 6 for guardrails)

H2: Why Doesn't Anyone Teach You This Directly?

Most sales training is built to sell *more sales training* — long courses, expensive coaching retainers, and certifications that take months. There's little incentive to hand you a complete system in one sitting.

Flow Manual does the opposite: **one manual, one read, the whole method** — because the goal is for you to close deals starting this week, not stay enrolled in a program for a year.

3.10 Module breakdown ("What's Inside")

H2: Here's Exactly What's Inside Flow Manual

Module 1 — The Opening Frame

How to start any sales conversation so you're seen as an equal, not a vendor

The 10-second frame-set that removes "salesy" energy

[add 2-3 more bullets]

Module 2 — Reading the Real Objection

Why "it's too expensive" is almost never about price

A 3-question filter to find out what's actually stopping the yes

[add 2-3 more bullets]

Module 3 — The Bridge Offer

How to reposition your offer as the obvious next step, not a pitch

[add 2-3 more bullets]

Module 4 — Closing Without Friction

The close that doesn't feel like a close

What to say after silence (instead of filling it nervously)

[add 2-3 more bullets]

Module 5 — Follow-Up That Doesn't Feel Needy

How to re-open a cold lead without sounding desperate

[add 2-3 more bullets]

(Adjust module count/names to match your actual manual's table of contents.)

4. TRUST & QUALITY BLOCK

H2: What You're Getting

Instant digital delivery — no shipping, read it in the next 5 minutes

[Page count] pages, written to be read in one sitting

Plain-language, no jargon, no filler

Lifetime access — yours to keep and re-read

Optimized for mobile reading (phone, tablet, e-reader)

(Replace the reference page's "GMP-certified facility / DGAV notification" language — that's specific to physical supplements — with digital-product trust signals: secure checkout, instant delivery, file format, device compatibility, refund policy.)

5. PRICING / OFFER STACK (low-ticket, €17-47 range)

Below is a workable 3-tier structure for a €17-47 low-ticket digital product. Adjust exact numbers, but keep the **anchor-vs-discount** and **stack-the-value** mechanics from the reference page — they transfer well to digital products.

Tier	Contents	Anchor price	Offer price	Notes
Tier 1 — Flow Manual	PDF only	€47	€17	Entry price, single item
Tier 2 — Flow Manual + Bonus 1 (MOST POPULAR)	PDF + Bonus 1	€67	€27	Highlight as best value
Tier 3 — Flow Manual + Both Bonuses	PDF + Bonus 1 + Bonus 2	€97	€37	Full stack, "serious buyer" tier

Payment note: one-time payment, no subscription — state this explicitly (this builds trust and mirrors what worked in the reference page).

Order bump idea (optional, since this is Shopify): a low-cost add-on at checkout, e.g. a "Quick-Start Cheat Sheet" for €7 — common and effective for digital low-ticket funnels.

6. BONUS STACK (2 bonuses, since no physical inventory)

Bonus 1 — "The 20 Objection-Killer Scripts" Value: €19 | Included free with Tier 2 & 3 A swipe file of word-for-word responses to the most common objections, so you're never caught improvising.

Bonus 2 — "The 5-Minute Daily Sales Warm-Up" Value: €19 | Included free with Tier 3 A short daily routine to keep your mindset and delivery sharp before calls or meetings.

(Both bonuses should also be digital/PDF for zero fulfillment cost.)

7. URGENCY / SCARCITY — DO THIS HONESTLY

The reference page uses "stock is running out" and "price may increase at any time." For a digital product with no real inventory limit, **do not fabricate false scarcity** (fake countdown timers, fake "X people bought this" counters, fake stock numbers) — platforms increasingly penalize this, and it's a trust/legal risk. Use **honest** scarcity instead:

Real launch-window pricing: "Charter price of €17 available through [actual date] — increases to €27 after launch week." (Only use if genuinely true and enforced.)

Real bonus deadline: "Bonuses included for the first [N] buyers" (only if you actually cap it and honor the cap).

Cohort/feedback framing: "This is a limited early-access batch — I'm personally reading feedback from the first buyers to refine v2." This is honest AND converts, because it explains *why* there's urgency without lying.

8. GUARANTEE

H2: The "Read It, Use It, or Get It Back" Guarantee

Try Flow Manual for 30 days. Use at least one technique in one real conversation. If it doesn't help you sell with more confidence, email [support email] for a full refund — no forms, no hoops.

(30 days is standard and credible for a low-ticket digital info-product; you don't need 180 days like a physical supplement — that length is specific to building trust around a health product taken over months.)

9. SOCIAL PROOF — PRE-LAUNCH STRATEGY (no fake testimonials)

Since there's no existing social proof, do **not** invent fake testimonials, fake names, or fake "results screenshots" — this is misrepresentation and, depending on jurisdiction, can be illegal advertising (and it's a fast way to lose trust once discovered). Instead, use these legitimate substitutes:

Founder credibility block (Section 3.4) doing the trust-building work testimonials would normally do.

"Early Access" framing: "You're getting this before it's ever been publicly reviewed — you're the first wave."

Process transparency: show the actual table of contents, a sample page/excerpt, or a short video of you explaining the method — this substitutes for third-party proof with first-party proof.

Post-launch plan: once you get first real buyers, collect genuine testimonials (with permission) and swap this section out — build this as a modular section in Shopify (metafield-driven) so it's a one-block swap later, not a redesign.

10. FAQ (accordion section)

Is Flow Manual right for me? If you sell anything — a product, a service, or even yourself in an interview — and conversations keep stalling before the close, yes.

What format is it in? A digital PDF, delivered instantly by email after purchase. Readable on phone, tablet, computer, or e-reader.

Is this a subscription? No. One-time payment. No recurring charges, ever.

How long is it? [X] pages — built to be read in one sitting (60-90 minutes).

What if it doesn't work for me? Covered by the 30-day guarantee — email [support email] for a full refund.

How do I get help with my order? Email [support email] and you'll hear back within [X] hours.

What's the difference between the three packages? Tier 1 is the manual alone. Tier 2 adds the Objection-Killer Scripts. Tier 3 adds both bonuses for the full system.

11. FOUNDER SIGN-OFF CLOSE

Go ahead — pick the package that fits you below, get instant access, and start using this in your very next conversation.

Thanks for reading this far. I can't wait to hear about your first close.

— **Lobo do Street**

P.S. Charter pricing won't stay this low once the early-access window closes. Lock in your copy now.

12. LEGAL / FOOTER (adapt, don't skip)

Required footer elements for a digital info-product:

Terms & Conditions link

Privacy Policy link

Refund Policy link

Contact/support email

Earnings/results disclaimer, e.g.:

"Results depend on individual effort, market, and consistency of application. Flow Manual provides a sales framework and educational content; it does not guarantee specific income or sales outcomes."

If any real numbers/results are ever cited on the page, they must be true, sourced, and not implied to be "typical" unless you can back that up.

13. SHOPIFY / CLAUDE CODE IMPLEMENTATION CHECKLIST

Give Claude Code this checklist directly:

Theme setup

Use Online Store 2.0 with a lightweight theme (Dawn or similar) as base

Strip main nav to logo + single CTA (funnel-style, no distractions)

Build each section in Section 1 as a **custom Shopify section** (`sections/*.liquid` or JSON templates) so content is editable without touching code later

Product setup

One product: "Flow Manual" with 3 variants (Tier 1/2/3) OR 3 separate "buy button" blocks tied to one product with variant-based pricing

Mark product as **digital / no shipping required** (Shopify setting: "This is a physical product" → OFF, or use a digital fulfillment app)

Digital delivery

Install a digital delivery app (Shopify Digital Downloads, SendOwl, or FetchApp)

Upload the PDF(s) per tier, map delivery to the correct variant

Test: does the buyer get an **instant** download link/email after checkout?

Checkout

Enable Shop Pay / accelerated checkout

Add trust badges near the buy button (secure checkout, instant access, guarantee)

Optional: add the order bump app for the €7 cheat sheet upsell

Page building

Build the full one-page funnel as a custom **page template** (not the default product page) so it can include all narrative sections above the actual add-to-cart/buy blocks

Repeat the pricing table + CTA at least 2 additional times down the page

Make FAQ an accordion (native theme block or a simple JS accordion)

Performance

Compress all images (WebP), lazy-load below-the-fold images

Keep the page under ~2MB initial load for mobile speed

Tracking

Add Shopify's native analytics + (optionally) Meta Pixel / GA4 if running ads

Legal pages

Auto-generate Shopify's standard Refund/Privacy/Terms pages and edit them to match Section 12 above

QA before launch

Test the full purchase flow for all 3 tiers on mobile

Confirm PDF delivery works and refund process is documented internally

Proofread all placeholder brackets `[...]` have been replaced with real content

14. WHAT TO CUSTOMIZE BEFORE HANDING THIS TO CLAUDE CODE

Before running this spec, replace every bracketed placeholder with real details:

- ☐ Real founder story (Section 3.5) — must be true
- ☐ Real framework name/acronym (Section 3.8)
- ☐ Real module names/bullets matching your actual manual's contents (Section 3.10)
- ☐ Final page count (Section 4, 10)
- ☐ Final pricing (Section 5) — confirm €17/27/37 or your chosen numbers
- ☐ Bonus content finalized (Section 6)
- ☐ Support email (Sections 8, 10, 12)
- ☐ Real launch date if using launch-window pricing (Section 7)
- ☐ Legal disclaimer reviewed (ideally by someone familiar with consumer protection rules in your country, since income/results claims for "how to sell" products are often scrutinized)

End of spec. Hand this whole file to Claude Code along with your theme access and final brand assets (logo, fonts, colors) to begin implementation.
